

HoriZen® Prime (XL) Composite

Modern and environmentally friendly privacy fence that is easy to install and virtually maintenance free.

Benefits

The natural look of wood with the advantages of composite

WPC (Wood Plastic Composite) combines the warm feel of wood with low maintenance and rigidity of recycled plastic. HoriZen is weather resistant, extremely durable and does not rot or splinter. The new fine grain look is neat, modern, and easy to clean and maintain.

Complete solution

Composite boards, stainless steel decorative boards, aluminium posts with their accessories, and the pre-assembled HoriZen single swing gate are all you need to install your privacy fence solution.

Easy installation

HoriZen components are specifically designed to make installation simple. The boards easily slide into the posts and a tongue and groove design ensures the boards neatly fit together. Fence heights can easily be adapted in 150/300mm increments and the composite material can be cut to the desired width on site. See how easy it is to install, watch our installation video on our website.

Combine unique elements to design your own look

Be your own architect and landscape designer. HoriZen Prime (XL) consists of different modern elements you can use to create a fence as unique as you. Choose from different colours, decorative boards and even use your own materials.

Product detail

Functionalities

HoriZen Prime (XL) Composite boards

HoriZen Prime (XL) Composite set contains:

- Extruded WPC boards with tongue and groove principle
- Colours: Antracite, almond brown, sand or grey
- Board height x length: 150 x 1780mm (or 300 x 1780mm for the XL version)
- Two plain sides of the boards
- One pack contains 12 boards (or six boards for the XL version), one fence panel of 1800 x 1800mm, top and bottom aluminium in Anthracite RAL 7016 structured

HoriZen post

HoriZen aluminium posts (70 x 70 x 2mm) are specifically designed to make installation easy and trouble free and to accommodate any installation requirement.

Available in three different lengths:

- For installation on foot plate/low fence height (1925mm)
- For installation in concrete (2400mm)
- For installation in concrete plus sloping (2980mm)

Technical information

- WPC (Wood Plastic Composite) extruded boards made from materials containing 98% recycled content
- 100% recyclable
- 10-year guarantee (see our quality policy)
- Boards are easily cut on site to desired width
- Desired fence height is easily achieved in increments of 150mm and using shorter posts
- Extra long aluminium posts (2980mm) are available for installation on slopes

Design your own unique fence

By combining different colours, decorative boards and adapter profiles, you can create your own fence to complement your environment.

Decorative options

Choose from two decorative boards to personalise your design and allow for visibility through the fence:

- Stainless steel
- Dimensions 150 x 1780mm
- Includes aluminium adapter profile (20 x 20 x 1800mm)

HoriZen gates

The HoriZen fencing system can easily be combined with single and double HoriZen gates.
